

Sign! the European Citizens' Initiative **WATER and SANITATION are a HUMAN RIGHT**

All citizens need clean drinking water and quality sanitation. We ask the European Union to guarantee these human rights through the promotion of water supply and sanitation as essential public services for all. These rights must be implemented.

The European Union should set binding targets for all Member States to achieve 100% coverage in Europe. We believe that the European Union should also make a bigger effort towards achieving universal access to water and sanitation outside the European Union. Millions of people are still deprived of these services.

Our goals:

- 1. Guaranteed water and sanitation for all in Europe.**
- 2. No liberalisation of water services.**
- 3. Universal (Global) access to water and sanitation.**

This campaign is a tool to commit to the human right to water and sanitation. It is a tool to change the mind-set in the European Commission from a market-based approach with the focus on competition to a rights-based approach with the focus on public service. It aims to achieve universal (global) access to water and sanitation and to safeguard the limited public water resources for future generations.

WATER is a PUBLIC GOOD, NOT a COMMODITY.
